QUARTIERS IN BRIEF

Quartiers Properties is a Swedish-owned real estate development company listed on Nasdaq First North in Stockholm. The company's business is geographically focused on Spain. Quartiers mainly invests in properties aimed at an affluent international target group.

Quartiers is the only publicly listed property company in Sweden whose entire business is geographically focused on Spain. The company is active in two main segments: property refinement and property development.

The company benefits from its Nordic background, with expertise in design and customer service that generates value in its property portfolio. Its products are created with a focus on a discerning Scandinavian target group, which contributes to the high quality of the projects and ensures an attractiveness that also appeals to numerous nationalities, including the local Spanish population.

In the area of property refinement, the company invests in underperforming properties with the aim of increasing the property's net operating income and stabilising the property's cash flow – thus increasing its value. The company also runs an operator business comprising hotel and restaurant management, primarily aimed at supporting the creation of value in the two main segments: property development and property refinement.

Despite the strict restrictions imposed in Spain, Quartiers has still managed to keep the operations running to a certain extent. Sanitary measures to protect both personnel and guests have been implemented effectively at both Boho Club and the company's flat hotel in Benahavís.

Quartiers is active in the premium segment and targets the tourism sector, which has been severely affected by travel restrictions as a result of Covid-19. The end of the first quarter and the beginning of the second quarter have seen a significant improvement in the company's operations. Boho Club has started to welcome guests again and recorded satisfactory sales in April 2021. There has also been strong interest in buying flats at the start of the second quarter, with a sharp increase in the number of viewings and most flats being reserved.

SUMMARY OF GROUP KEY PERFORMANCE INDICATORS

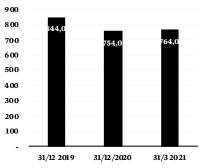

SUMMARY OF KEY PERFORMANCE INDICATORS

As a result of Covid-19, the company's hospitality business has been closed for much of the quarter. Flat sales have also been negatively affected. The company is experiencing strong interest in buying properties in Spain, but travel restrictions pose a challenge in completing closings. The company's net asset value per ordinary share fell in the first quarter from SEK 6.09 to SEK 5.88, a decrease of 3.4%. The decrease in net asset value includes the value of accumulated dividends, as well as default interest on unpaid dividends, which together amounted to SEK 7 653 thousand as at 31 March 2021. On the same date, the company's share price was quoted at SEK 5.75 per ordinary share.

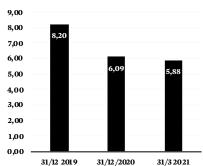

Boho Club in Marbella finished the first quarter strongly with good sales in the last week, which continued into the second quarter.

MESSAGE FROM THE CEO

This is the first time we are publishing a quarterly report, as in the past we have only produced half-yearly reports. The timing of this change to quarterly reporting is timely, as we expect a big difference in sales between the first quarter and the second quarter, where we are now. The first three months have clearly been affected by restrictions and closures due to Covid-19, as well as a normally weak season for tourism and property purchases in Marbella. Boho Club, for example, was closed for most of the quarter, from 27 January to 25 March. Since reopening, we have experienced very strong demand and are pleased to report satisfactory sales at the start of the second quarter. This is despite the fact that the Spanish market has been limited due to domestic travel restrictions, and demand from one of our largest markets, the UK, has been almost non-existent. Throughout most of the pandemic, we have kept our operations more or less open, keeping costs down and maintaining a good level of service. So when we reopen, we do so more prepared than ever and with the best training a management team can get on how to drive sales in a creative and cost-effective way.

Although we are far from normal levels, much of the current restrictions are expected to be phased out during May, which in turn is expected to contribute to an overall increase in demand across our business. Therefore, those who like trends will hopefully note a strong positive one when we publish the report on 16 July for what looks to be a second quarter of recovery.

Our focus on the premium segment looks set to benefit us in the ongoing recovery phase. Our target audience, both for Boho Club and for buying flats, villas and plots, has in many cases seen their fortunes grow over the last twelve months. Both equity markets and property markets in many of the countries where our clients are located have risen sharply over the past year, spurred by an unprecedented expansion of monetary and fiscal policy. We look set to benefit from this trend in several ways.

First and foremost, it means that our customers have had the opportunity to accumulate a larger travel fund which they will now spend on travel, hotel accommodation and restaurants. In addition, the fact that asset prices in many of our customers' home markets have risen sharply, not least in the form of real estate prices, is having an impact. It affects the willingness to spend more money on travel and hotel accommodation, which benefits us. Finally, it also provides an increased borrowing capacity and the possibility to refinance the primary residence in order to free up money to buy a holiday home in the Costa del Sol.

In addition to the sense of recovery that I have conveyed above, I would also like to take this opportunity to tell you about the work underway on the new master plan in Marbella, which is expected to have a hugely positive effect on Boho Club and the neighbouring properties that we own. During the quarter, we started working with HCP Architects in Malaga, one of the region's most experienced and reputable architectural firms. Together, we have developed sketches analysing the great potential of the project and how to strengthen the successful concept we have created at Boho Club by multiplying the number of square metres of building space with more restaurants, hotel rooms, public spaces, commercial spaces and sports facilities. The results are strikingly positive, and the potential of the property in the context of how we want to develop Boho Club on Marbella's most exclusive street for hotels and restaurants is unique. In early 2020, the municipality presented a timetable for the completion and approval of the new master plan by mid-2023. The first part of the process was on schedule, and a vision plan was published in the summer of 2020. The next step is an initial approval of the plan, which is expected to be published in the second half of 2021. It is deemed to confirm that we will get back the square meters of building rights that we were entitled to in a previously approved but annulled general plan for the Marbella municipality, on which our business case for the development of the area is based.

Last but not least, I would like to highlight the teamwork that the whole Group has contributed. We have evolved as a company in many different ways, and despite the fact that we have been through the toughest period ever in the company's history, everyone has contributed, stood up and been understanding even when many have unfortunately had to leave their jobs or were temporarily laid off. Although the pandemic year has been costly in many ways, we are stronger today as a company than ever before, and we look forward to demonstrating this when demand returns to Marbella.

OUR PROJECTS

SUMMARY OF PROJECTS

Quartiers' business operations consist of the development and running of properties. The holdings consist of seven different projects in various phases. The portfolio consists of both earning properties with further upside value potential, as well as plots and flats for sale.

The first quarter was marked by a strong third wave of Covid-19 in Spain and a new partial shutdown of society. However, once operations reopened at the end of March, demand picked up sharply. Boho Club was closed between 27 January and 25 March. In the last days of March, around Easter, record sales were recorded at Boho Club, with a near-capacity hotel contributing positively to the result.

Demand for flats, villas and plots was also very weak in the first part of the quarter, which is natural due to seasonal factors, but mainly due to travel restrictions and the shutdown of parts of the community. However, demand picked up in the last days of March and has continued into the second quarter. Nevertheless, two Hacienda Collection flat sales were completed in the first quarter of 2021.

BOHO CLUB

Award-winning and exclusive hotel and restaurant project on Marbella's Golden Mile. The restaurant has been recommended in the Michelin Guide, and the hotel has received several awards for its distinctive design. The hotel has 30 rooms, with 2–4 beds in each room. Both the hotel and the restaurant have been closed for most of the quarter due to the Covid-19 restrictions in Spain. Despite this, the business generated turnover of SEK 2.2 million in the first quarter. EBITDA for the project was SEK -2.3 million.

Work is underway on a new local development plan, which is expected to significantly increase the number of construction rights on the property and enable further development.

OCEAN VIEW BY QUARTIERS

Flat project in Benahavís with approximately 10,000 square meters of building rights to develop 60 new flats. The company is currently exploring the possibility of positioning the project within the sharing economy and selling parts of flats during certain periods of the year. The concept is deemed suitable for a target group that only intends to use the flat for part of a year and thus wants to avoid the costs and administration related to full ownership.

COMPLETED VILLA FOR SALE IN NUEVA ANDALUCIA

This luxury residence, located in exclusive Nueva Andalucia, has recently been completed and is now for sale. The villa has both sea and golf views and is being marketed by the estate agency Maiti Homes.

Please contact Maiti Homes to book a viewing.

HACIENDA COLLECTION BY QUARTIERS

Flats for sale in the Hacienda Collection, which is a gated residential area situated at the foot of the Sierra de Las Nieves mountain range. During the first quarter, two flat sales were completed. At the end of March and throughout April, demand increased. In addition to outright sales, Quartiers has noted an increased interest in so-called "rent-to-own" deals, whereby buyers pay a deposit of around 30%, pay in instalments for a period of time and then obtain full ownership at a later date. The concept has proven successful and beneficial for both Quartiers and its customers.

Please contact the Quartiers sales team for more information and to book a viewing.

RESIDENTIAL PLOTS IN LOS FLAMINGOS

Two residential plots in the exclusive Los Flamingos area in Benahavís municipality. The plots have sizes of 1,583 and 1,360 square metres. The largest of them is currently for sale. Both plots can be developed immediately using a quick and easy licensing process. Please contact the Quartiers sales team for more information.

CENTRO FORESTAL SUECO

This 13,730 square-metre property is located next to Boho Club and is less than two minutes' walk from the beach in Marbella. Quartiers is planning to develop this plot into an exclusive gated community with houses and/or flats.

Work is underway on a new local development plan, which is expected to significantly increase the number of construction rights on the property and enable further development.

Quartiers is currently working with one of the region's leading architects to conceptualise and design the project. In addition, the possibility of positioning the project in the sharing economy and selling it as parts of flats with the full range of services of the Boho Club is being explored.

QUARTIERS MARBELLA FLATS

Generously dimensioned and tastefully furnished flats for short-term and long-term rentals.

The business generated sales of SEK 2.0 million and EBITDA of SEK -0.1 million in the first quarter of 2021.
